

## BIOCHEM MULTI-USE DETERGENT

product for professional use

Publication date: 03-04-2012 Edition n°:01

### Description

**BIOCHEM MULTI-USE DETERGENT** is an ECOLOGICAL cleaner for everyday use on hard, water-resistant surfaces, leaving a shiny, streak-free finish. **BIOCHEM MULTI-USE DETERGENT** complies with environmental requirements for biodegradability, ecotoxicity and efficiency set forth by the **EU ECOLABEL** (EU Directive 2005/344/EC).

### Applications

Due to its unique composition, **BIOCHEM MULTI-USE DETERGENT** is ideal for use on hard, water-resistant surfaces including floors, stainless steel, glass, mirrors, glazed ceramic tiles, etc. It effectively eliminates fingerprints and film, leaving a streak-free shine and a mild, pleasant scent.

Do not use on water-sensitive surfaces. Perform a patch test on a hidden surface to ensure the material is compatible before use.

### How to use

**Spray on:** Add the appropriate amount to a spray bottle and fill to the top with water. Spray onto a cloth or directly on the surface to be cleaned and then dry with a clean cloth. On stubborn dirt, let the degreaser soak in and then wipe off with a moist cloth.

**Bucket:** Add the appropriate amount depending on the dirt to be removed and apply to the surface using a mop, cloth or sponge. You do not need to rinse if you only use a small amount.

**Precautions:** Do not use on materials that are water-sensitive (untreated wood or cork, painted surfaces, etc.). Perform a patch test on a hidden surface to ensure the material is resistant before use.

### Dosage

**To clean lightly dirty surfaces:** from 1 to 10 ml (0.1 to 1%) per litre of water.

**To clean moderately dirty surfaces:** from 10 to 50 ml (1 to 5%) per litre of water.

**To clean heavily dirty surfaces:** from 50 to 100 ml (5 to 10%) per litre of water.

**IMPORTANT:** Using the appropriate dosage will save money and reduce its impact on the environment.

### Technical Specifications

**Physical state:** Yellow liquid, lightly scented

**pH (100%):** 8,0 ± 0,5

**Density at 20°C:** 1.010 g/cm<sup>3</sup>

**Solubility in water:** Soluble at any proportion

This information relates to the standard values for the product and should not be considered as a product specification.

### Health, Safety and Storage

- Product is NOT classified as hazardous according to the classification system based on EC Directives.
- S2 Keep out of the reach of children
- S49 Keep only in the original container
- S50 Do not mix different cleaners
- Do not ingest
- Full information on how to handle and discard the product is supplied on a separate Safety Data Sheet.
- In case of an accident, call the Medical Service of Toxicological Information on Tel. +34 915 620 420.
