BIOCHEM NEUTRAL DETERGENT FOR FLOOR CLEANING MACHINES

product for professional use

Publication date: 03-04-2012

Edition nº:01

Description

BIOCHEM NEUTRAL DETERGENT FOR FLOOR CLEANING MACHINES is an ECOLOGICAL cleaner that is especially formulated to clean floors with an automatic floor cleaning machines. BIOCHEM NEUTRAL DETERGENT FOR FLOOR CLEANING MACHINES complies with environmental requirements for biodegradability, ecotoxicity and efficiency set forth by the EU ECOLABEL (EU Directive 2005/344/EC).

Applications

Due to its unique composition, **BIOCHEM NEUTRAL DETERGENT FOR FLOOR CLEANING MACHINES** is ideal for cleaning hard floors with an automatic floor cleaning machine, even on treated surfaces. This product is very effective even when slightly diluted, and it leaves a pleasant, mild scent.

Do not use on water-sensitive surfaces. Perform a patch test on a hidden surface to ensure the material is compatible before use.

How to use

MACHINE:

Fill the tank on the cleaning machine or single-disk floor care machine with water. Add the appropriate dosage of the product to the water. Apply the solution. Mop and vacuum at the same time. For stubborn dirt, allow the cleaner to soak in for a while and then vacuum.

MANUAL:

By hand with mop and double bucket. Fill a bucket with water and add the appropriate dosage of the product. Apply the solution with the mop and allow it to soak in for a while if necessary. Remove the dirty solution.

Precautions: Do not use a concentration higher than 1% on waxed floors. Do not use on materials that are water-sensitive (untreated wood or cork, painted surfaces, etc.).

Perform a patch test on a hidden surface to ensure the material is resistant before use.

Dosage

Machine: Scrubber drier for floor cleaning: from 10 to 20 ml (1 to 2 %) per litre of water.

Manual: From 10 to 50 ml (1 to 5%) per litre of water.

Increase the dosage for very dirty floors.

IMPORTANT: Using the appropriate dosage will save money and reduce its impact on the environment.

Technical Specifications

Physical state: Green liquid, lightly scented

pH (100%): 7,5 ± 0,5 **Density at 20°C:** 1.00 g/cm³

Solubility in water: Soluble at any proportion

This information relates to the standard values for the product and should not be considered as a product specification.

Health, Safety and Storage

- Product is NOT classified as hazardous according to the classification system based on EC Directives.
- S2 Keep out of the reach of childr
- S49 Keep only in the original container
- S50 Do not mix different cleaners
- Do not ingest
- Full information on how to handle and discard the product is supplied on a separate Safety Data Sheet.
- In case of an accident, call the Medical Service of Toxicological Information on Tel. +34 915 620 420.
